---

**Information furnished in conformity with the Convention  
on Registration of Objects Launched into Outer Space****Note verbale dated 19 September 2024 from the Permanent  
Mission of Indonesia to the United Nations (Vienna) addressed to  
the Secretary-General**

The Permanent Mission of Indonesia to the United Nations (Vienna) has the honour to refer to article II of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution [3235 \(XXIX\)](#), annex).

Based on the Convention, the Permanent Mission wishes to register the Merah Putih 2 satellite (see annex).<sup>1</sup>

---

<sup>1</sup> The data on the space object referenced in the annex were entered into the Register of Objects Launched into Outer Space on 30 September 2024.

## Annex

### Registration information on a space object launched by Indonesia\*

#### Merah Putih 2

#### Information provided in conformity with the Convention on Registration of Objects Launched into Outer Space

Committee on Space Research international 2024-035A  
designator

|                                              |                                                                                   |
|----------------------------------------------|-----------------------------------------------------------------------------------|
| Name of the space object                     | Merah Putih 2                                                                     |
| National designator/registration number      | Merah Putih 2                                                                     |
| State of registry                            | Indonesia                                                                         |
| Other launching States                       | United States of America                                                          |
| Date and territory or location of the launch | 20 February 2024 at 2011 hours<br>0 seconds UTC;<br>Cape Canaveral, United States |
| Basic orbital parameters                     |                                                                                   |
| Nodal period                                 | 1,440 minutes                                                                     |
| Inclination                                  | 0 degrees                                                                         |
| Apogee                                       | 35,786 kilometres                                                                 |
| Perigee                                      | 35,786 kilometres                                                                 |
| General function of the space object         | Communication satellite                                                           |

#### Additional voluntary information for use in the Register of Objects Launched into Outer Space

|                                                                    |                                                                      |
|--------------------------------------------------------------------|----------------------------------------------------------------------|
| Geostationary position                                             | 113.0 degrees East                                                   |
| Change of status in operations                                     |                                                                      |
| Date when space object will no longer be functional                | 27 March 2040 UTC                                                    |
| Date when space object will be moved to a disposal orbit           | 27 March 2040 UTC                                                    |
| Physical conditions when space object is moved to a disposal orbit | Passivation of all subsystems                                        |
| Change of supervision of the space object                          |                                                                      |
| Date of change in supervision                                      | 27 March 2024 at 1100 hours UTC                                      |
