**Information furnished in conformity with the Convention
on Registration of Objects Launched into Outer Space****Note verbale dated 20 December 2024 from the Permanent Mission
of Sweden to the United Nations (Vienna) addressed to the
Secretary-General**

The Permanent Mission of Sweden to the United Nations (Vienna), in accordance with the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution [3235 \(XXIX\)](#), annex), has the honour to transmit information concerning the launching of test satellite GNA-3 (see annex).¹

¹ The data on the space object referenced in the annex were entered into the Register of Objects Launched into Outer Space on 27 December 2024.

Annex

Registration information on a space object launched by Sweden*

GNA-3

Information provided in conformity with the Convention on Registration of Objects Launched into Outer Space

Committee on Space Research international designator	2024-149BF
Name of space object	GNA-3
State of registry	Sweden
Other launching States	United States of America
Date and territory or location of launch	16 August 2024 at 1856 hours UTC; Vandenberg, United States
Basic orbital parameters	
Nodal period	94.58 minutes
Inclination	97.44 degrees
Apogee radius	6,900 kilometres
Perigee radius	6,852 kilometres
General function of space object	Test-satellite

Additional voluntary information for use in the Register of Objects Launched into Outer Space

Space object owner or operator	Swedish state
Launch vehicle	Space X Falcon 9

* The information was submitted using the form prepared pursuant to General Assembly resolution [62/101](#) and has been reformatted by the Secretariat.
