Information furnished in conformity with the Convention on Registration of Objects Launched into Outer Space

Note verbale dated 20 May 2025 from the Permanent Mission of Djibouti to the United Nations

The Permanent Mission of Djibouti to the United Nations, in accordance with the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution [3235 \(XXIX\)](#), annex) and the recommendations set out in resolutions 1721B (XVI) of 20 December 1961 and 62/101 of 17 December 2007, has the honour to transmit information on DJIBOUTI-1B (see annex).¹

¹ The data on the space object referenced in the annex were entered into the Register of Objects Launched into Outer Space on 29 July 2025.

Annex

Registration information on a space object launched by Djibouti*

DJIBOUTI-1B

Information provided in conformity with the Convention on Registration of Objects Launched into Outer Space

Committee on Space Research international designator	2024-247AB
Name of the space object	DJIBOUTI-1B
National designator/registration number	DJ-2024-001
State of registry	Djibouti
Other launching States	United States of America (launch base)
Date and territory or location of launch	21 December 2024 at 1134 hours 0 seconds UTC; Vandenberg, California, United States
Basic orbital parameters	
Nodal period	95 minutes
Inclination	44.99 degrees
Apogee	515.28 kilometres
Perigee	504.63 kilometres
General function of the space object	Gathering of meteorological data transmitted by ground-based measurement stations
Date of decay/re-entry/deorbit	5 March 2027 at 0000 hours 0 seconds UTC (estimated)

Additional voluntary information for use in the Register of Objects Launched into Outer Space

Change of status in operations	
Date when the space object was no longer functional	5 March 2027 at 0000 hours 0 seconds UTC (estimated)
Space object owner or operator	Ministry of Higher Education and Research
Website	https://spatialdjiboutien.net/
Launch vehicle	Falcon 9
Other information	DJIBOUTI-1B has been successfully placed in orbit. Since its deployment, the satellite has been operating as intended and is in fully satisfactory condition. All subsystems are operational and performance is in line with mission expectations

* The information was submitted using the form prepared pursuant to General Assembly resolution 62/101 and has been reformatted by the Secretariat.
